

PP-FRP black Backing ring ANSI

Backing ring ANSI ASME B16.5 class 150

- molded with large radii, perfectly suitable for plastic stub flanges
- with steel insert, for maximum strength

Benefits

- UV-resistant
- Extreme strength
- permanent-heat resistant
- chemical and corrosion resistant
- perfect for plastic pipe connections

New!

Flange connections are an essential part of each piping system. For detachable connections, connections to butterfly valves or transitions to other materials, the AGRU PP-FRP (Fibre-reinforced plastic) backing rings in combination with plastic stub flanges is perfectly suitable. This results in a force-locking connection with high safety.
